MEMORANDUM FOR: Director of Security

SUBJECT :

25X1A9a

1. Almost a year ago I reported to you on my view of the way [REDACTED] has carried out his responsibilities as the security officer for the handling of materials collected by Mr. Bissell's project.

2. The security system, which was principally the work of [REDACTED] has proved to be a very effective and workable means of properly protecting the source while at the same time insuring maximum utilization for National Security purposes. Whereas I am not privy to the workings of all special security systems, I would be surprised if any work more effectively than the one of which I speak.

3. Aside from the principles and procedures which I believe are sound, it is worthy of note that the success of the system depends considerably, in my opinion, upon the orderliness and prompt follow-through by the office of the security officer in charge. [REDACTED] has excelled in these regards in the face of a multitude of activities and pressures.

4. I would like to note also my appreciation for the strong support which [REDACTED] assistant, has provided when I have dealt with him.

5. Both of these gentlemen have earned the respect of the people with whom they work, including the many from other agencies.
